

# Mechanic

**IK Norway** is experiencing increased demand for our services and is looking for mechanics to add to the team. We seek to hire candidates who have experience in piping systems from a mechanical point of view. We can offer problem solving activities, challenging operational requirements and a positive fast paced working environment. IK Norway wants a more equal gender balance and therefore encourages women to apply.

## DUTIES AND RESPONSIBILITIES

- Participate in systematic maintenance in IK's Workshop
- Participate in the fabrication of equipment as required
- Execute warehouse and workshop-related tasks, for and in cooperation with other departments in IK
- Testing and following up on construction sites and offshore, domestically and abroad
- Be specialized in one or several of the services IK has to offer
- Participate and understand the company's HSE and quality assurance measures

## QUALIFICATIONS

- Experience from various mechanical tasks
- Minimum 5 years relevant experience with a Trade Certificate (experience can compensate for lack of formal education)
- Certified Courses as required

## SKILLS

- Effective technical skills
- The ability to work under pressure
- Problem-solving skills.
- Verbal and written communication skills.
- Commercial awareness.
- Teamworking skills.

**Workplace:** Mainly at IK Norway, Christian August Thorings veg 9, Stavanger

**Start:** ASAP
